

FOR IMMEDIATE RELEASE

January 3, 2008

LEADING HOSPITALITY COMPANY CHOOSES CATALYST FOR MISSION
CRITICAL APPLICATION DEVELOPMENT

This industry leader found itself in a dangerous place when two of their most critical operational technology systems were unsupportable because of the high degree of customization and lack of documentation. Catalyst was chosen to reverse engineer these applications to provide documentation, and then to re-develop and integrate them into the client's existing suite of enterprise-wide business systems.

ABOUT CATALYST IT SERVICES

Catalyst IT Services is the leading onshore alternative to offshore information technology outsourcing. Through our regional development centers in the United States, we offer application life cycle development, implementation and support, and quality assurance and testing solutions to Fortune 500 and middle-market clients.

We are able to provide flexible solutions from our domestic facilities or on client sites with communication, control and consistent quality unattainable by our overseas competitors, at a cost unmatched by our domestic competitors. Using our deep expertise in both leading edge and legacy technologies, we are able to deploy the appropriate technology to solve our clients' business challenges, while providing the convenience, flexibility, and control our clients can enjoy only with a local partner.
